

504-7A LOAN COMPARISON

If you're looking for a small business loan to purchase commercial real estate or heavy machinery/equipment, the SBA 504 loan is the best choice. If purchasing a business or getting working capital is the goal, the SBA 7A loan is likely the better tool.

More explicitly, with a SBA 504 loan, proceeds can be used to buy a building, finance ground-up construction or building improvements, or purchase heavy machinery and equipment. 7a loan proceeds can be used for short-term or long-term working capital and to purchase an existing business, refinance existing business debt, or purchase furniture, fixtures and supplies.
